DETAILED ACTION

Allowable Subject Matter

Claims 1-18 are allowed. The applicant is required under 37 CFR 1.177(c) to merge claims 19-25 and 35-40 of application serial number 11/943,479 with this application for allowance of all of the claims.

The following is an examiner's statement of reasons for allowance: Prior arts of record do not disclose a method and a system for monitoring a fleet of vehicles in which a vehicle mounted device set forth in claim 1 or 15 sends vehicle position data to a network-based server so that one of more fleet managers can access the network-based server to monitor the real time vehicle position; the vehicle mounted device establishes communication to the network-based server to report the position data to the server; when the communication is disconnected, the vehicle mounted device saves the position data to a memory, and sends the saves data to the server when the connection is reestablished. The vehicle mounted device utilizes short range communication between the second processing module and the wireless telephone on board the vehicle to reduce wiring between the second processing module and the telephone.

.Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
